## EMPLOYMENT

### Development team leader

Mar 2023 - May 2023

Udbardy Designs & Associates In, Miami, USA

I am hired as a freelance by the company to make the website of one of the businesses of the CEO of this company which I do with a working group that I have worked and studied before, as I am focused on the frontend, I do the UI/UX in Figma and the front we work with NextJS, tailwind and the backend design we do with AWS and NodeJs.

### Frontend development team leader

Feb 2023 - Apr 2023

Grooming Argentina, Buenos Aires, Argentina

we made a group of 7 people, where I lead from scratch and determine who will go to each of the groups (backend and frontend), and in frontend I do with my group all the website schema, bashboard and within this we implement encryption and security.

For this project we handle: MongoDB, Mongoose, Express, NodeJS, JWT, bcrypt, Firebase, axios, React, Redux, Bootstrap, EmailJs.

### Teaching assistant at SoyHenry

Jan 2023 - Mar 2023

#### Bootcamp

Soy Henry, Argentina

- Guide students in the first steps of the course and clarify their doubts
- Provide assistance in solving exercises and encourage group teamwork (Pair Programming).
- Suggest ideas to improve the Bootcamp processes.

### Freelance in Collaborative Projects

Nov 2022 - Feb 2023

Medellín, Colombia

I am a highly skilled and motivated freelancer with a strong focus on collaborating with others to deliver quality projects. I have extensive experience developing web applications using a variety of technologies, including HTML, CSS modules, JavaScript framework, forms, databases, React, MongoDB and Next.js. I also have a deep understanding of front-end and back-end technologies, and know how to integrate them to create robust and scalable solutions. I am highly dedicated to my work and always strive to deliver high quality results, meeting project deadlines and exceeding client expectations.

### Operator - Operational Development Leader

Jun 2015 - Feb 2016

Asecol, Cartago, Colombia

Company that is responsible for carrying the cadastre of sewerage networks in different cities of the country and in which I entered to work as a casual worker and after 1 month of work and educational proactivity, I managed to start climbing in the company for 1 year (fulfillment of the contract) and in which I filled the vacancy of an

engineer and which I identified the needs of the operation and I took forward the contract and led the workers who worked here which were 26 people which were in 3 different crews.

## PROFILE

I am a passionate and highly motivated Full Stack developer with a strong focus on problem solving and excellent troubleshooting skills.

My passion is developing applications with React and Express, but I am open to working with any technology that allows me to improve my skills and add value to my team.

I am highly motivated and passionate about continuous learning and complex problem solving. I am also willing to dedicate the time and effort necessary to improve my skills and bring value to any development team.

## EDUCATION

### Full Stack Developer

Oct 2022 - Feb 2023

Henry, Remoto

SoyHenry's Bootcamp is an intensive technology training program designed to help professionals improve their skills and become experts in their areas of interest. This program combines classroom instruction with hands-on projects and individual mentoring to provide comprehensive and effective training. In addition, I completed all modules with a perfect score.

### Systems and software maintenance

Sep 2012 - Feb 2014

CEIM, Cartago
